

*A unique partner for every step of your project!*

# ATLAHUA Series

TURBO EXTRACTOR WITH PUMPING GROUP

Solid and ready to start production, is the unit of **«Extraction»** or **«Refining» «All-in-One»**, designed to guarantee the same performances and maximum flexibility and features of the standard unit.

It represents years of expertise and know-how, thanks to its versatility can work a high range of raw materials and obtain finished products that satisfy the highest quality parameters.

Pulpy Juice is more liquid and has lower fibers compared to a refined puree; it has more fibers than cloudy juice but it is characterized by the same very low viscosity.

## We are your partner with whom make grow your business

**ORION ENGINEERING S.R.L.** company was founded after over 30 years of partnerships with national and international market's best Food Processing players.

We specialized on the development of **«tailor-made» solutions** for agri-food prototypes and installations for small and middle production.

**ORION ENGINEERING S.R.L.** can count on a multidisciplinary team qualified on different lateral skills. The daily effort, together with a constant activity of research and development, marked the company's worldwide success.
