

A unique partner for every step of your project!

ATLAHUA Series

TURBO EXTRACTORS FOR HOT EXTRACTION

Solid and ready to start production, is the unit of **«Extraction»** or **«Refining» «All-in-One»**, designed to guarantee the same performances and maximum flexibility and features of the standard unit.

It represents years of expertise and know-how, thanks to its versatility can work a high range of raw materials and obtain finished products that satisfy the highest quality parameters.

Pulpy Juice is more liquid and has lower fibers compared to a refined puree; it has more fibers than cloudy juice but it is characterized by the same very low viscosity.

We are your partner with whom make grow your business

ORION ENGINEERING S.R.L. company was founded after over 30 years of partnerships with national and international market's best Food Processing players.
